

Covered Entities Guide for Public Users

Viewing 340B Database Reports

This guide will identify and explain the importance of 340B reports. The 340B Database guides you in compiling and printing reports for each major function.

Major Sections in This Guide

To jump to a specific group of reports in this guide click one of these links:

To view the **Reports/Files** page, click **Reports/Files** in the “*What Would You Like to Do?*” section or click the **Reports/Files** tab on the menu bar of the 340B Database home page.

The **Reports/Files** page lists all the reports available to the general public. Click on a link to access the report.

Click the  symbol to expand report groups to see the reports they contain.

Medicaid Exclusion File

The **Medicaid Exclusion File (MEF)** lists covered entities that have chosen to use 340B drugs for their Medicaid patients and to bill Medicaid for those drugs (carve-in). The file also lists the Medicaid provider numbers and/or NPIs that the entities have identified as being used to bill for those drugs, to assist state Medicaid agencies in separating rebate-eligible claims from those that would result in duplicate discounts if rebates were requested. Entities must be consistent with their Medicaid billing carve-in/out decisions. For entities that decide to carve-in, all drugs billed to Medicaid using the listed number/NPI must be purchased under the 340B program. Entities that DO NOT use 340B drugs for Medicaid patients (carve-out) must ensure that all drugs billed to Medicaid (under any provider number/NPI) were NOT purchased at 340B prices.

The 340B database takes a snapshot of carve-in decisions at 12:01am ET on the 15th day of the month prior to the start of each quarter, irrespective of weekends or holidays. At any time, covered entities may submit online change request forms to modify their Medicaid billing decisions, but changes only take effect quarterly and only when received, approved, and processed by OPA before the time of the snapshot for that quarter. For example, a change submitted on June 1 and approved on June 2 will be reflected in the June 15 snapshot governing the July-September quarter. A change submitted on June 14 but not approved until June 16 will not be reflected in the June 15 snapshot, but will be included in the snapshot for the October quarterly MEF. The prior decision will remain in effect until the quarter beginning October 1.

HRSA generally does not make retroactive changes to the quarterly MEF once it is published. On rare occasions, a technical system issue may warrant an immediate modification. If retroactive changes are necessary, HRSA will communicate this to the 340B Program stakeholders.

Follow these steps to download and review the **Medicaid Exclusion File**.

- 1) On the **Reports** page, click the  button.

The **Download Medicaid Exclusion File** page displays a warning for covered entities that might claim duplicate drug price discounts, explains a requirement that entities must decide whether or not to use 340B pricing and bill Medicaid, and describes how drug manufacturers and wholesalers, and state Medicaid agencies can use the Medicaid Exclusion File to 340B participants.

Download Medicaid Exclusion File

42 USC 256b(a)(5)(A)(i) prohibits duplicate discounts; that is, manufacturers are not required to provide a discounted 340B price and a Medicaid drug rebate for the same drug. Covered entities must have mechanisms in place to prevent duplicate discounts.

All covered entities that use 340B and bill Medicaid must determine whether they will use 340B drugs for their Medicaid patients (carve-in) or whether they will purchase drugs for their Medicaid patients through other mechanisms (carve-out). Covered entities that carve-in are required to inform HRSA of their decision by providing their Medicaid provider number/NPI and the state that is billed with that provider identifier.

When covered entities decide to bill Medicaid for drugs purchased under 340B with a given Medicaid provider number/NPI (carve-in), then ALL drugs billed to Medicaid with that number/NPI must be purchased under 340B and that number/NPI must be listed in the 340B Program database and the MEF. For covered entities that opt to purchase Medicaid drugs outside of the 340B Program (carve-out), ALL drugs billed under the applicable Medicaid provider number/NPI must be purchased outside the 340B Program and that Medicaid provider number/NPI should not be listed on the 340B Program database or the MEF. For every individual entity site that chooses to carve-in Medicaid, the appropriate Medicaid provider number or NPI and the associated state should be listed on the MEF.

The files available below allow drug manufacturers/wholesalers and state Medicaid agencies to identify organizations that have chosen to carve-in for a given calendar quarter. The 340B database takes a snapshot of carve-in decisions at 11:59pm ET on the 15th day of the month prior to the start of each quarter, irrespective of weekends or holidays. The "start date" indicates the first date the entity began participating in the 340B Program; the "term date" is the effective date the entity no longer participates in the 340B Program.

A change to the Medicaid Exclusion File may be requested at any time, but changes do not take effect until the first day of the following quarter and only if approved by OPA before the time it takes the quarterly snapshot of carve-in/carve-out decisions. The files contain all entities that had at least one Medicaid provider number/NPI registered with OPA as of the snapshot for each quarter, along with program start and termination dates for those entities.

Medicaid Exclusion File by Quarter

10/01/2015 - 12/31/2015

- 2) Select the desired quarter from the drop-down list. This date range reflects the effective quarter of the covered entities' Medicaid billing carve-in decision.
- 3) Click the  button. A dialog box asks whether you want to open the file in Microsoft Excel spreadsheet or save it for later.

If you choose to open it, the **Medicaid Exclusion File** displays in a Microsoft Excel spreadsheet. The “start date” field represents the first date the covered entity began participating in the 340B Program; the “term date” represents the effective date the entity no longer participates in the 340B Program, if applicable. These dates *do not* relate to the covered entities’ MEF determination to carve-in Medicaid. The “Medicaid State” field identifies the state that is billed with the Medicaid Provider Number listed in the MEF. The “State” field simply lists the state jurisdiction where the covered entity is located.

You can use Excel’s search feature to locate a specific covered entity. To search for a covered entity using the 340B Database search, see [Searching, Viewing, and Exporting Covered Entities](#).

Archived Medicaid Exclusion File

The **Archived Medicaid Exclusion File** provides links to download historical quarterly Medicaid Exclusion Files that have been archived from the 340B database.

Follow these steps to download and review an archived **Medicaid Exclusion File**.

- 1) On the **Reports** page, click the [Archived Medicaid Exclusion File](#) button. The Archived Medicaid Exclusion Files page displays.
- 2) The **Exclusion Files from Previous Quarters** section at the top of the page lists the historical quarterly Medicaid exclusion files that are available for download (in both WinZip and Microsoft Excel formats).

Archived Medicaid Exclusion Files

The Office of Pharmacy Affairs has replaced the former Medicaid Exclusion Files (both the DBF and Excel files) with a **new online Medicaid Exclusion File Search**. This report allows States to download only those records that are relevant for that State. In addition, this new report has real-time information on each covered entity (such as address and contact information) and allows covered entities to list more than one Medicaid Provider Number, if appropriate.

Instructions for accessing this and other reports may be found in the [OPA Database Guide for Public Users - Reports](#) or you may contact Apexus at ApexusAnswers@340bpvp.com or by phone at 1-888-340-2787.

Medicaid exclusion files help States and manufacturers avoid the application of the 340B discount and the Medicaid rebate to the same drug purchases (a duplicate discount).

Covered entities that bill Medicaid for drugs purchased at 340B prices must provide the Office of Pharmacy Affairs (OPA) with their pharmacy Medicaid provider number, which is placed in an "exclusion" file. OPA makes this exclusion file available to the state Medicaid agencies so that the state does not request a Medicaid rebate from a manufacturer for the already discounted 340B drugs. [Federal Register Notice](#) establishing the mechanism, May 7, 1993.

- Select the link for the quarterly **Medicaid Exclusion File** you want to download.
- A dialog box asks whether you want to open the file or save it for later.

If you chose to open it, the **Medicaid Exclusion File** displays in an Excel spreadsheet.

You can use Excel's search feature to locate a specific covered entity. To search for a covered entity using the 340B Database search, see [Searching, Viewing, and Exporting Covered Entities](#).

Orphan Drug File

The **Orphan Drug File** enables drug manufacturers and wholesalers to access historical reports of hospitals eligible to purchase orphan drugs under the 340B program through December 31, 2015. Eligible 340B hospitals are responsible for ensuring that orphan drugs purchased through the 340B program are not sold, transferred or used for the rare condition or disease for which the orphan drugs are designated.

Hospitals subject to the orphan drug exclusion are:

- Free Standing Cancer Hospitals (CAN)
- Critical Access Hospitals (CAH)
- Sole Community Hospitals (SCH)
- Rural Referral Centers (RRC)

Follow these steps to download the **Orphan Drug File**.

- 1) On the **Reports** page, click the  button.

The **Download Orphan Drug Selection File** page displays.

[Download Orphan Drug Selection File](#)

340B hospitals subject to the orphan drug exclusion (critical access hospitals, free-standing cancer hospitals, sole community hospitals and rural referral centers) are responsible for ensuring that any orphan drugs purchased through the 340B Program are not transferred, prescribed, sold, or otherwise used for the rare condition or disease for which the orphan drugs are designated under section 526 of the Federal Food, Drug, and Cosmetic Act.

Historical files allow drug manufacturers and wholesalers to identify affected hospitals that had purchased orphan drugs under the 340B Program. This file will not be updated after December 31, 2015.

For purchases made during the selected quarter:

04/01/2015 - 06/30/2015

- 2) Select the quarterly time period in which the drug purchases were made.
- 3) Click the  button.
- 4) A dialog box asks whether you want to open the file or save it. If you chose to open it, the **Orphan File** displays in Microsoft Excel.

Contract Pharmacy Carve-ins

The **Contract Pharmacy Carve-ins** lists covered entities that have informed OPA of an arrangement with the listed contract pharmacy and respective state Medicaid agency to prevent duplicate discounts.

Follow these steps to view the **Contract Pharmacy Carve-ins arrangements**

- 1) On the **Reports** page, click the **Contract Pharmacy Carve-Ins** button.
- 2) The **CP Search Criteria** page is displayed with the “Search Carve-Ins” checkbox selected by default. If no other search criteria are specified, this will produce an unfiltered report of all covered entities with carve-ins.

CP Search Criteria

For more information about searching for contract pharmacies, viewing search results, and exporting to Excel, refer to [Searching, Viewing, and Exporting Contract Pharmacy Data](#).

Daily Reports

The daily reports are available by clicking the button and then clicking the symbol to expand the **Daily Reports** group.

Three daily reports are available, one for each major OPA function. Click a link below to jump to a description of the report:

- [Covered Entity Daily Report](#)
- [Contract Pharmacy Daily Report](#)
- [Manufacturer Daily Report](#).

When you click the link for a daily report, a dialog box asks if you want to open it in an Excel spreadsheet or save to your hard drive.

Note: The dialog shown above is from Internet Explorer. The message you see will depend on the browser you are using.

Covered Entity Daily Report

The **Covered Entity Daily Report** lists all the entities in the 340B database, both active and inactive. Comprehensive data displays for each entity. Use Excel's search feature to locate a specific entity or its filters to limit spreadsheet entries.

Quarterly Reports

The **Quarterly Reports** link on the **Reports** page grants you access to a wealth of data in the HRSA Data Warehouse. You are able to generate numerous customized reports containing HRSA and Medicare data.

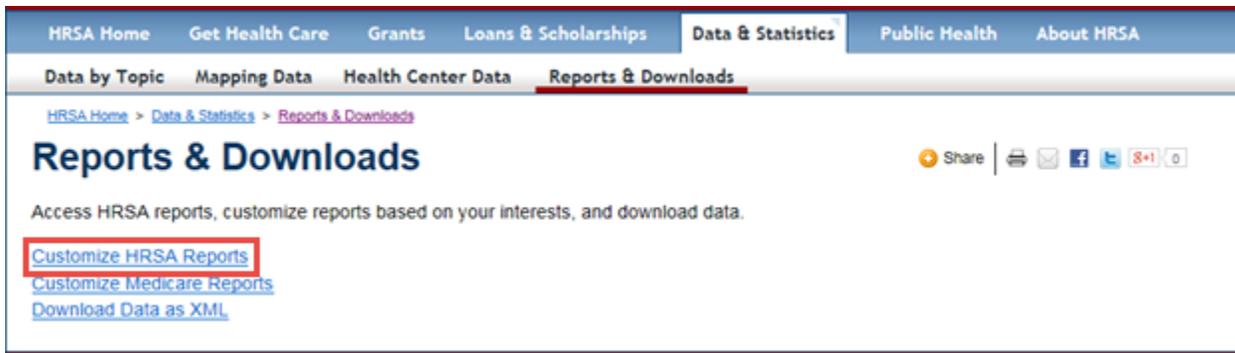

Follow these steps:

- 1) Click the  button to expand the **Quarterly Reports** group.

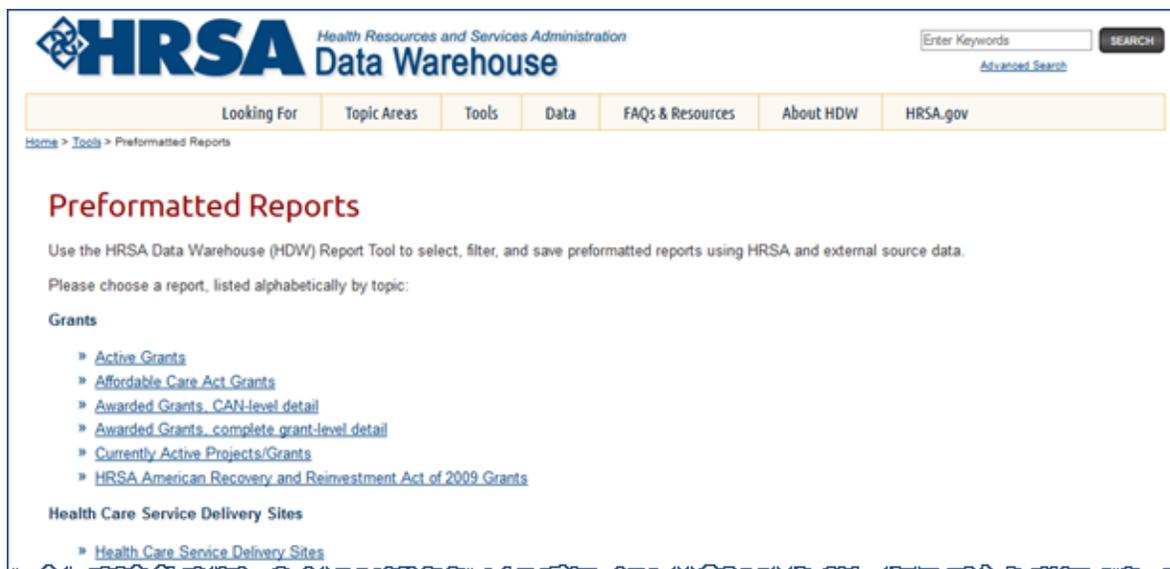

- 2) Select **Quarterly Reports**.

The **HRSA Reports & Downloads** page displays, allowing you to generate customized reports containing HRSA and Medicare data.

3) Click the **Customize HRSA Reports** link.

The **Preformatted Reports** page enables you to access the HRSA Data Warehouse Report Tool in order to generate customized reports based on HRSA and Medicare records.
